

REMARKS/ARGUMENTS

This is a continuation application. The parent application has issued. This amendment has been made to add claims directed to additional features of the invention. The claims have been amended so that none of the claims are the same as those found in the allowed parent application.

However, in the event that the Examiner feels that a terminal disclaimer is necessary to place the present application in condition for allowance, the Examiner is invited to call the applicant so that a terminal disclaimer can be promptly filed.

Respectfully submitted,

February 23, 2004
